How it works

Step 1 - Focus

Focus shows you the first three lessons you need to study and the order in which to help you make the fastest progress, then suggests the next three lessons upon completion. Learners can also select lessons by level/topic from the All Activities tab.

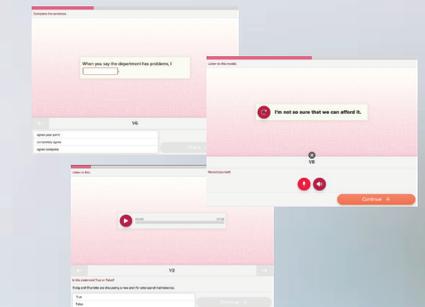

Step 3 - Practice

Business Speaking role-plays are dynamic, changing depending on each learner's answers, providing a more realistic experience where you practice multiple skills and learn multiple phrases, even when making mistakes!

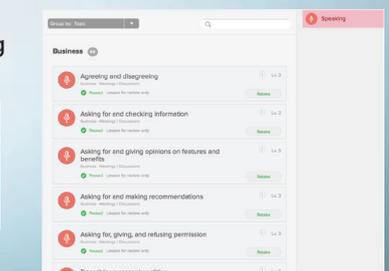

Step 2 - Study

Learners are introduced to a situation, then study a series of stages focusing on listening, grammar (topical phrases) and pronunciation practice.

Step 4 - Completion

Finish the course by passing the required number of lessons.

Step 5 - Certificate

Print certificate as proof of successfully completing the course!
