Industries: Retail, Hotel/Hospitality, Financial, Engineering, Insurance, Pharmaceutical

About WordMine

WordMine offers a flexible, effective way to increase English vocabulary in just 15 minutes a day.

The course uses adaptive learning technology to help students focus on words they don't know, and tracks their knowledge of meaning, written form and spoken form.

WordMine is an ideal supplement to any learning programme and is suitable for private language school, corporate and academic environments.

Vocabulary for General English is recommended to all learners who need to boost their overall vocabulary range alongside a general English course of study. Students who require more focused list coverage can choose from up to 22 specialist-subject areas to match their needs in a business context, or their discipline.

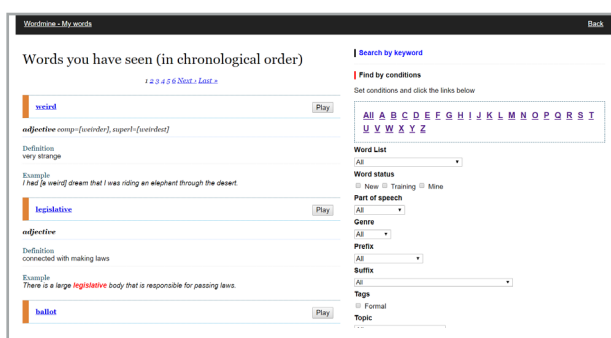

The WordMine System

WordMine employs a spaced repetition learning system to introduce new vocabulary and provide repeated and varied practice of words in the study cycle ensuring long-term retention.

WordMine allows students to learn at their own pace. Sessions can be started and interrupted at any point, and students can then pick up where they left off.

WordMine offers:

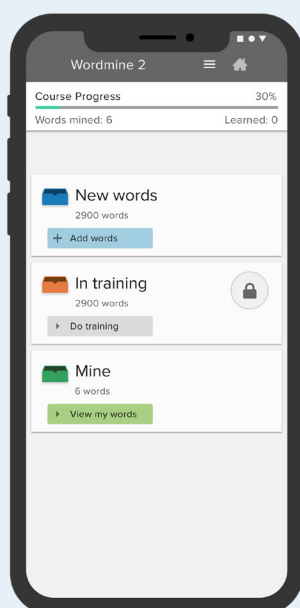

- A level check to assess ability and ensure each learner is working at the correct level (Vocabulary for General English only).
- A unique, adaptive learning system that introduces new words, repeats and recycles items in training, and banks vocabulary that has been mastered.
- A wide range of exercise types to practice meaning, spelling and pronunciation of new words.
- A 'My Words' section with in-depth information about key words.
- A comprehensive reference section for more in-depth coverage of vocabulary and tips and strategies for remembering new words.
- A substantial choice of content to support vocabulary development in a general English, business or academic learning environment.

Lesson Flow

The structure of **WordMine** allows students to study at their own pace, take a break, and simply pick up where they left off.

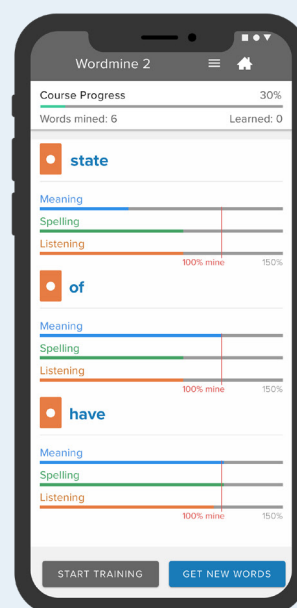

A short level check at the start of the course ensures learners are working at the correct level.

Students are presented with new words and begin to create a bank of vocabulary items to learn.

New words are practiced in a variety of ways, covering meaning, written forms, and spoken forms.

Students can view training results to monitor their progress.
